

Cedar Road Elementary PTA Goals 2016-2017

The mission of the Cedar Road Elementary PTA is to support an excellence in learning for each child and to promote a sense of community among families, faculty and staff by providing programs, services and events available to all.

More specific goals have been set to help us achieve our primary goal of enhancing and promoting our students education for the 2016-2017 school year.

Your PTA aims to:

1. Provide volunteers for educational programs that support the academic focus, increase self esteem, and encourage motivation for learning.
2. Provide family/ school related activities to promote parent/family involvement in the school environment.
3. Establish and maintain links between CRE and area businesses which can support learning and our school environment.
4. Inform and financially support (when possible) the CRE PTA community of/with any child advocacy or educational opportunities that are provided by local, state and national PTA.
5. Provide volunteers for special non-academic activities so teachers will have maximum time for academic instruction and planning.
6. Finance school assemblies and educational programs that are informative, entertaining and support the educational curriculum.
7. Financially assist the school in purchasing media and technology resources to be used as learning aids for students and instructional resources for teachers and staff.
