

# **Great Opportunity for Seniors**

## **No cost- Absolutely Free**

Tidewater Community College has received a grant to assist the seniors at Oscar Smith High School to improve their math scores before they enter college. The grant would allow all seniors, regardless of plans for after high school, to test and improve their math scores, if necessary, before entering college.

If a senior's score indicates that he/she needs to improve his math score, TCC is prepared to provide the senior with additional assistance to improve their score. The assistance provided by TCC is free. The student only needs to be committed to improving, be motivated and focused in working towards improving their math skill

If you have an interest in your son/daughter participating in this special program, please have them stop by the office beginning January 19<sup>th</sup> to pick up an application and a participation form.

For additional information, please see Mrs. Rhodes (548-0696) or Mrs. Huddle (548-0992).
