

IB Mathematics SL 12  
Summer Assignment

Topics we explore as Seniors:

AP Calculus, Internal Assessments Type I and Type II, Preparation for IB Exams

School Supply List ...please bring these items on the first day of school.

- a. Blue or Black ink ... no pencils
- b. Large 3-ring Binder with lots of loose leaf
- c. TI-84+ Silver Edition Graphing Calculator
  - i. If you prefer, the school can issue you one next year.
- d. Colored Pencils (or Markers)
- e. Ruler
- f. Box of Tissues

IB exams do not permit the use of pencils ... so we might as well get used to writing with blue or black ink. Do not buy white-out, that's not allowed either. We'll talk about how to manage your errors without erasing if and when that occurs! (and yes, it will occur!)

Historically, the summer assignment does not positively (or negatively) impact the math we cover as IB Seniors. Any math that needs to be reviewed will happen during class!

Have a great summer!
