

Pre-IB Math Analysis & Trigonometry
Summer Assignment

1. School Supply List ...please bring these items on the first day of school.
 - a. Blue or Black ink ... no pencils
 - b. *Small 3-ring Binder with lots of loose leaf
 - c. Scientific Calculator ... TI30XSII preferred. It's about \$10.
 - i. NO GRAPHING CALCULATORS ALLOWED
 - d. Colored Pencils (or Markers)
 - e. Ruler
 - f. Box of Tissues

2. School Supply List ... leave this at home.
 - a. **Large 3-ring binder

*The small binder will be used to carry back and forth between home and classroom.

** ** When a unit is finished, the small binder will be transferred to the large binder thus emptying the small binder for the next unit. The large binder will be kept at home for reference and for studying for the final exam.

IB exams do not permit the use of pencils ... so we might as well get used to writing with blue or black ink. Do not buy white-out, that's not allowed either. We'll talk about how to manage your errors without erasing if and when that occurs! (and yes, it will occur!)

3. Have a great summer! Any math that needs to be reviewed will happen during class!

Email me at Cathy.Meador@cpschools.com with any questions you might have.
