

## REVENUE - STATE

State support for the operation of the public schools is derived primarily from the Basic State Aid appropriation. The sum appropriated to each school division from this source is based on the application of an established cost-per-pupil (for each locality) as determined by the state for each pupil in average daily membership (ADM). This sum, minus the state sales and use tax, and the ability of the locality to support its public schools establishes the contribution by the state. Additional state aid is received in lesser amounts in other categories according to specific guidelines established by the State Department of Education. Major sources of state revenue are highlighted below.

**Please note that since the General Assembly did not adopt a revised State budget during the 2001 regular session, figures used for State Revenue are based on the 2001-2002 Budget adopted during the 2000 session. The only changes to these figures are due to the assumed reduction in the VRS rate. The revenue categories affected by the VRS rate are noted below with an asterisk (\*).**

**\*Basic Aid:** Funding is established at \$3,629 per pupil in average daily membership (37,538 - Adjusted ADM) minus the state sales and use tax, and the local share based on the financial ability of the locality (composite index at .3517) as prescribed by the state formula. Funding is \$3,644 per pupil for 2000-2001, and the composite index is .3517.

**Vocational Education:** Funding is established at \$63 per pupil in average daily membership minus the local share based on the financial ability of the locality as prescribed by the state formula. A portion of the revenue in this category results from state support for adult education, occupational and technology education, and for on-site administration of a vocational education high school. Funding is \$63 per pupil for 2000-2001.

**Special Education:** Funding is established at \$317 per pupil in average daily membership minus the local share based on the financial ability of the locality as prescribed by the state formula. Funding is \$317 for 2000-2001. Additionally, a portion of the revenue in this category results from state support for homebound instruction, foster home children, and regional tuition payments.

**Gifted and Talented:** Funding is established at \$36 per pupil in average daily membership minus the local share based on the financial ability of the locality as prescribed by the state formula. Funding is \$36 per pupil for 2000-2001.

**\*VRS Contribution, Social Security Benefits, and Group Life Insurance:** The state share of each payment is based upon a per-pupil amount for each student in average daily membership minus the local share based on the financial ability of the locality as prescribed by the state formula. The per-pupil amounts for 2001-2002 are as follows: \*VRS - \$96; and FICA - \$174 and Group Life - \$7.

**\*Remedial Education:** Funding is established at \$57 per pupil in average daily membership minus the local share based on the financial ability of the locality as prescribed by the state formula. Funding is \$59 per pupil for 2000-2001.

## REVENUE - STATE

(continued)

**Remedial Summer School:** Funding is established at \$353 per remedial student attending elementary or secondary summer school minus the local share based on the financial ability of the locality as prescribed by the state formula. For 2000-2001, funding is \$353 per remedial student.

**Textbooks:** Funding is established at \$61.25 per pupil in average daily membership minus the local share as prescribed by the state formula. Funding is based on a system of free textbooks. Funding is \$61.25 per pupil for 2000-2001.

**State Sales Tax:** The state annually distributes to the school system a portion of the state sales tax revenue designated for the support of public education. The amount received each year is determined by the amount of total state collections and the triennial school census. The budgeted sales tax amount for 2001-2002 is based on an estimate by the state of Chesapeake's share of sales tax revenue.

**Forest Reserve:** The U.S. Fish and Wildlife and Minerals Management Service distributes funds generated from the leasing of lands required for flood control and navigation. In Virginia these funds are used in support of public education.

**At Risk:** Special funding is included to support programs for students who are educationally at risk. An additional allocation of Basic Aid is provided based on a percentage of students in Chesapeake who are eligible for the free lunch program.

**Maintenance Reserve:** For the past several years, a maintenance supplement has been provided to assist with the cost of ongoing maintenance needs and for debt service. Funding is \$15.00 per pupil for 2000-2001 and 2001-2002.

**ESL:** Funding has been included to assist with students who speak English as a second language.

## REVENUE - STATE

(continued)

**\*Salary Supplement:** No funds are included for a salary increase for 2001-2002. The dollar amount shown funds the state share of the 2.4% increase provided in 2000-2001.

**Class Size:** Funding is included to reduce class size in grades K-3 in all schools housing those grades. The pupil teacher ratios funded range from 14:1 to 24:1, with the lower ratios provided at schools with higher free lunch percentages.

**SOL Teaching Material:** An incentive payment to purchase materials aligned with the Standards of Learning is provided at \$10 per pupil. Funds are included in 2000-2001 at \$10 per pupil.

**Reading Intervention:** Funding for early intervention services to primary grade students is provided totaling \$374,282.

**Remediation Assistance:** Funding to support the development of remediation programming for the Standards of Learning and the statewide testing program are included totaling \$453,425.

**Lottery Proceeds:** This represents Chesapeake's share of proposed lottery proceeds.

**Technology:** For 2001-2002, Technology funds will be included as a grant.

**Additional Teachers:** Funding is provided for the state's share of additional elementary teachers. These teachers must be in addition to those funded through the Standards of Quality and the K-3 Reduced Class Size payment.

**GED:** For 2001-2002, these funds will be included as a grant.

**SOL Algebra Readiness:** Funding to provide math intervention services to students in grades 6, 7, 8, and 9 who are at risk of failing the Algebra I end of course test.

**Technology Resource Assistants:** Funding provides for the State share of \$26,000 per high school for on-site technology support.
