¹The capacity estimates for each school have been rounded to the nearest 25 and may change every year because of program changes, grade level realignments, and/or changes in the need for special education services.

²The minus sign (-) indicates the school has student spaces available.

³Replacement of the HVAC is currently underway at this facility. As each area of the building undergoes construction, students in those affected classrooms will be temporarily relocated. Twelve portable classrooms have been placed on site for this purpose.
